SUMMARY

Computer Science Engineering undergraduate with a track record of building real-world software, from AI-powered applications to full-stack platforms. Thrives on ownership - taking projects from concept to completion - and brings the discipline of a decade of competitive training into every technical challenge. Confident working across teams, solving problems independently, and delivering results under pressure.

TECHNICAL SKILLS

Programming Languages: Java, Python, C

Databases: MySQL, MongoDB

Web & Full-Stack: HTML, CSS, JavaScript, React.js

Auth & APIs: JWT authentication, RESTful APIs, Role-Based Access Control (RBAC)

Soft Skills: Learning Agility, Problem-Solving, Collaboration, Attention to Detail

Tools: Git, GitHub, VS Code, Figma, Postman

PROJECTS

Multilingual Lecture Assistant | AI/ML Full-Stack Project

- Built a full-stack AI application that transcribes multilingual lectures using OpenAI Whisper, producing highly accurate transcripts on clear audio with only minor errors on noisy or domain-specific content.
- Applied spaCy and TF-IDF-based extractive summarization to condense lecture transcripts by approximately 60-70%, retaining the most important concepts for quick review.
- Automated generation of 5-10 exam-oriented questions per lecture (definition, fill-in-the-blank, and true/false formats) and translated content into 10 Indian regional languages (Tamil, Hindi, Telugu, Kannada, Malayalam, Bengali, Marathi, Gujarati, Punjabi, Urdu).
- Enabled note export in PDF, DOCX, and TXT formats, supporting flexible downstream use by students.

Industry Mentor Portal | Full-Stack Web Application (MERN)

- Built a scalable mentoring platform end-to-end using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based access control (RBAC) supporting 3 distinct user roles (mentors, mentees, admins) on a secure, multi-role platform.
- Designed RESTful APIs for session scheduling and feedback management, supporting a secure client-server architecture.

EDUCATION

B.E. Computer Science and Engineering — Bannari Amman Institute of Technology

2023 – Present | CGPA: 8.25

12th Grade (HSC): 83% | 10th Grade: 95%

RELEVANT COURSEWORK

Data Structures and Algorithms, Object-Oriented Programming (Java), Database Management Systems, Operating Systems, Computer Networks

CERTIFICATIONS & HACKATHONS

- HACK-AI-THON'25 — Finalist
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- TCS iON Career Edge — Young Professional
- CISCO-IBM SkillsBuild — AI Fundamentals & Networking Basics

EXTRACURRICULAR & LEADERSHIP

- Black Belt, Martial Arts — 10 years of continuous training, with experience competing at state and national level tournaments.
- Secured 3rd place (national level) in a martial arts competition, demonstrating consistency and performance under high-pressure conditions.
- Mentored and coached junior batches, building early experience in teaching, patience, and structured skill-building — transferable to team collaboration and onboarding new members.
